Description	Quantity	Unit Price	GST	Amount AUD
Package 2: Focal Compact Performance- amplified front stage with compact subwoofer and rear speakers powered by the head unit. This package is designed for customers who want to take the next step beyond a speaker-only upgrade without moving into a larger multi-amplifier system. It combines the Focal Access 165 AS front component speakers with matching Focal 165 AC rear coaxial speakers, the compact Focal Impulse 4.320 amplifier and a shallow 10-inch Focal subwoofer. This package is best suited to customers wanting a complete front and rear speaker upgrade with dedicated front amplification and proper sub-bass, without moving into the cost or complexity of a larger multi-amplifier or DSP system. The rear speakers remain efficiently powered from the head unit, while the amplifier is focused on the front stage and subwoofer where it provides the greatest benefit.				
Car Consoles Front Premium Speaker Door Pods with ABS door pockets and integrated drink holder	1.00	785.00		785.00
Focal 165 AS 6.5-inch front component speakers	1.00	515.00		515.00
E4WD Tweeter Pillar Mounts	1.00	299.00		299.00
Car Consoles Rear Premium Speaker Door Pods	1.00	485.00		485.00
Focal 165 AC 6.5-inch rear coaxial speakers	1.00	400.00		400.00
Focal Impulse 4.320 compact 4-channel amplifier	1.00	549.00		549.00
Focal IW PWSUP600 amplifier power supply kit	1.00	65.00		65.00
Focal IW IMP 2.1 amplifier harness	1.00	120.00		120.00
Focal IW TOY YISO Toyota head unit harness	1.00	100.00		100.00

Description	Quantity	Unit Price	GST	Amount AUD
Focal SUB 10 SLIM shallow 10-inch subwoofer	1.00	320.00		320.00
Car Consoles Rear Wall Panel with Subwoofer Enclosure	1.00	885.00		885.00

Focal Access speakers:

The Focal Access range is designed and engineered by Focal in France.

The Focal Access front and rear speakers are an excellent match for this system. Their efficient design means they do not require excessive power to perform well, while the amplified front stage provides greater control, cleaner output and more headroom where it matters most.

The rear 165 AC speakers remain powered directly from the head unit. Their relatively high sensitivity makes them well suited to this role, allowing us to add rear fill without requiring a larger amplifier.

Focal Impulse Amplifier:

The Impulse amplifier is particularly well suited to this package because it can power the front speakers and subwoofer from a single compact amplifier. Two channels power the front speakers, while the remaining two channels are bridged to provide power to the subwoofer.

Focal Subwoofer:

The Focal SUB 10 SLIM adds the low-frequency response that is missing from the standard 79 Series speaker locations. Its shallow design allows it to be installed in our vehicle-specific rear wall subwoofer enclosure without sacrificing unnecessary cabin space.

We also use Focal's dedicated amplifier wiring solutions wherever compatible. This helps simplify the installation and, with compatible Toyota factory head units, can allow connection without cutting or modifying the factory audio wiring.

Need freight or installation?

The pricing shown is for supply only and does not include freight or installation.

Recommended head unit options:

For customers upgrading their head unit at the same time, we recommend either the Kenwood DDX920XDS (RRP \$1,349.00) or Kenwood DMX9724XDS (\$1,999.00).

The Kenwood DMX9724XDS can also be supplied pre-wired and pre-assembled for an additional charge, helping simplify installation and reduce the amount of wiring and assembly required in the vehicle.

Please get in touch if you would like us to add a head unit and the appropriate vehicle-specific installation components to your package.

Package pricing:

Get in touch if you're considering one of our packages.
