Package 7: Focal K2 Power 3-Way DSP- our premium recommended 79 Series system Package 7 moves into Focal's legendary K2 Power range. The K2 Power ES 165 KX3E is a 3-way speaker system designed, developed and manufactured in Focal's Saint-Étienne workshops in France. The distinctive yellow K2 cone uses an aramid-fibre sandwich construction designed around three important properties: rigidity, lightness and damping. The result is a speaker with exceptional dynamics, impact and control while still reproducing fine detail. This package uses the 3-way K2 system up front and matching K2 Power rear coaxial speakers, maintaining a consistent premium Focal sound throughout the vehicle. Best suited to customers looking for our premium 79 Series audio package, with the emphasis on sound quality, output, detail and system tuning rather than simply making the stereo louder				
Car Consoles Front Premium Speaker Door Pods with ABS door pockets and integrated drink holder	1.00	785.00		785.00
Car Consoles 3-Way A-Pillar Speaker Pods We mount the midrange and tweeter into our vehicle-specific 3-Way A-Pillar Speaker Pods, placing these important frequencies much closer to ear level rather than leaving them low in the doors. Includes upholstery in light grey Alcantara (view website listing for upholstery options, including having the factory A-pillar upholstered in light grey Alcantara.	1.00	640.00		640.00

MATCH UP 1FX mono subwoofer amplifier	1.00	595.00		595.00

Focal K2 Power speakers:

The K2 Power range is developed and made in France and combines Focal’s iconic K2 aramid fibre sandwich cone technology with high-performance tweeters and advanced suspension technology.

The K2 cone uses an ultra-light foam core sandwiched between a layer of aramid fibre and a layer of glass fibre. This construction is designed to deliver an excellent balance of rigidity, lightness and damping, producing highly detailed, dynamic and precise sound with strong power handling and very low colouration.

The K2 Power speakers selected for this package are developed and made in France in Focal’s workshops and represent a significant step up in performance for customers wanting greater clarity, dynamics and output from their system.

Focal Flax Evo Subwoofer:

The Focal P 25 FSE shallow 10-inch subwoofer is installed into our vehicle-specific rear wall enclosure, adding strong, controlled low-frequency performance without taking up unnecessary cabin space.

Its slim design makes it particularly well suited to the limited space behind the rear seat of the 79 Series Dual Cab, while the Flax cone provides a more refined and natural bass response that complements the rest of the system.

Need freight or installation?

The pricing shown is for supply only and does not include freight or installation.

Recommended head unit options:

For customers upgrading their head unit at the same time, we recommend either the Kenwood DDX920XDS or Kenwood DMX9724XDS.

The Kenwood DMX9724XDS can also be supplied pre-wired and pre-assembled for an additional charge, helping simplify installation and reduce the amount of wiring and assembly required in the vehicle.

Please get in touch if you would like us to add a head unit and the appropriate vehicle-specific installation components to your package.
